

**Amendments to the Specification:**

**Please replace the paragraph [0010] of the published application in the section labeled Summary of the Invention with the following paragraph:**

the complementary determining region-2 (CDR-2) sequence SITSTGGGTYHAESVKG (SEQ ID NO:2), and

**Please replace the paragraph [0022] of the published application in the section labeled Description of the Figures with the following paragraph:**

FIG. 1 shows the design of the hVH. The rVH is shown aligned with KOL, and with the designed KOLWI2VH-1 (SEQ ID NO:19) and 2 (SEQ ID NO:20) sequences. Dashes indicate that the sequence matches at that position in the ~~rWI2VK~~ rWI2VH sequence (SEQ ID NO:~~22~~ 18). Narrow boxes indicate positions where the rat aa was retained in the humanized FR sequences. Note that the ~~KOLWI2VK-1~~ KOLWI2VH-1 (SEQ ID NO:19) sequence contains an extra rat aa, when compared with ~~KOLWI2VK-2~~ KOLWI2VH-2 (SEQ ID NO:20), at position 5. CDRs are indicated by wider boxes.
